To Apply: Send resume to jobs@valkyrie.com. Job number 201612-051SB must appear in the subject line of email to be considered.

Position: Engineering Technician

Location: Pascagoula, MS

Job Description:

Performs a variety of electrical trade functions such as the installation, maintenance, or repair of equipment for the generation, distribution, or utilization of electric energy. Work involves most of the following: Installing or repairing any of a variety of electrical equipment such as generators, transformers, switchboards, controllers, circuit breakers, motors, heating units, conduit systems, or other transmission equipment; working from blueprints, drawings, layouts, or other specifications; locating and diagnosing trouble in the electrical system or equipment; working standard computations relating to load requirements of wiring or electrical equipment; and using a variety of electrician's hand tools and measuring and testing instruments. In general, the work of the maintenance electrician requires rounded training and experience usually acquired through a formal apprenticeship or equivalent training and experience.

Job Qualifications:

- High school diploma or equivalent
- Completion of a technical school, trade school, or advanced armed service technical school curriculum or course of training in electricity, electronics, avionics, mechanics or engineering; OR Completion of at least 30 semester hours of course studies at an accredited college or university in an engineering, scientific, or technical curriculum
- At least 3 years Navy Shipboard Work Experience

Security Requirements:

US Citizenship required. Applicant selected will be subject to a government security investigation and must meet and maintain eligibility for Secret Clearance, and must meet screening requirements for access to military facilities, naval shipyards and private shipyards. Active Clearance required.

Travel Requirements:

Some travel may be required

Other Requirements:

Candidate must have the ability to work in shipboard environment. Able to lift, carry and transport heavy equipment and boxes. The exact weight requirements will be determined by the specific job. Able to work

shipboard, including climbing ladders, work in extreme temperature environments, noise and dirty conditions, working aloft or over the sides of vessels, under industrial conditions and in confined spaces. Duties may involve riding ships at sea.
