

Valkyrie Enterprises, Inc. Becomes Employee Owned

Valkyrie, Inc., a Virginia Beach, VA based company announced that the company is now owned by an Employee Stock Ownership Plan (ESOP) trust, effective 1 January 2019. In the transaction, current and future employees gain a beneficial ownership interest in the company without any personal monetary investment.

The CEO, Mr. Gary Lisota, set up the ESOP for Valkyrie because he believes that, **“At a certain point in a company’s life, that those who help to grow the company should share in the success as an owner.”**

Mr. Lisota further noted, “Overall, this is a major step for the company and all of you as employee owners. For you, this is an additional retirement program that will cost you nothing...except for what you are already giving...your hard work and dedication to our success. For the company, this is an opportunity to work with all of you in creating an ownership culture in Valkyrie that motivates us all to help grow the company, and thereby the personal retirement benefit, and nurtures a sense of pride in that ownership and the success we achieve.”
