

WIRE ROPE CORROSION CONTROL

S2S Wire Rope Corrosion Control is formulated to protect all types of wire rope from rust and corrosion. It bonds to metal, like a magnet to steel, displacing water and oxygen and preventing rust long term.

Unlike grease that only sits on the surface of wire rope, S2S formula is a superior lubricant and penetrant. It creeps below the surface, in and around individual fibres all the way to the core, providing excellent anti-seize capabilities.

For more than 30 years, S2S corrosion preventive solutions have been successfully protecting marine vessels and heavy equipment in the harshest environments. S2S Wire Rope prevents rust caused by salt spray and extreme weather. It is non-toxic and is easy-to-apply with an airless sprayer, brush or by dunking.

**EXCELLENT PENETRANT
AND ANTI-SEIZE THAT
BRINGS NEW LIFE TO
RUSTED WIRE ROPES**
