

# AUTOMOTIVE RUST PROOFING

**S2S Automotive Rust Proofing** is formulated to protect vehicles of all types from rust and corrosion. It instantly bonds to metal, like a magnet to steel, displacing water and oxygen and shutting down rust cells.

**S2S Automotive Rust Proofing** is a superior lubricant and penetrant, offering several advantages. It creeps into hard to reach areas, is an excellent anti-seize and penetrates under existing rust to act as a descaler. S2S Automotive Rust Proofing is electrically non-conductive, halts electrolysis and prevents corrosion caused by dissimilar metals.

For more than 30 years, S2S corrosion preventive solutions have been successfully protecting marine vessels and heavy equipment in the harshest environments. S2S Automotive Rust Proofing is the ultimate rust inhibitor for cars, trucks and trailers. It is easy-to-apply with an airless sprayer, brush or roller and there is no curing time. S2S is safe on the environment, non-toxic and non-hazardous.

**RELIABLE PROTECTION  
FOR VEHICLES FROM  
EXTREME WEATHER,  
ROAD SALT AND SAND**
